not to make the proposed reduction in the salaries of school teachers. Professor J. H. Hewitt, a graduate of Yale, and for three years acting president of Olivet College, has been elected Professor of Greek at Dartmouth.

A new building for the Indian girls is soon to be erected at Hampton, Va. There are sixteen new Indian students in the Government school there, three of them being Apaches.

The average cost of teaching per pupil in the Philadelphia schools is \$9 46. Based on annual expenditure the average cost is \$12 90. The School Board is shortly to consider an amendment to the rules providing that no pupil shall be excluded from the schools by reason of color.

The total amount received for the Connecticut schools from all sources during the past year was \$1,481,680 93—an increase of nearly \$33,000 over the year before. The attendance was 119,694—a percentage upon the school population of 94.37. The male teachers received an average monthly salary of \$56 43, the female teachers \$35 42.

Superintendent Seaver, of Boston, has approved in the heartiest fashion, in his recent report, the Board of Supervisors, whose help he finds of value. On the question of supplementary reading he suggests that provision be made to have all the pupils of a teacher reading the snme book at the same time, the library thus helping the schools to an extent hitherto unknown.

The Boston Society of Natural History will open a sea-side laboratory at Annisquam, Mass., June 15, the session to end September 15. There will be no stated course of instruction and no lectures, the purpose being to afford opportunities for the study and observation of the development, anatomy and habits of common types of marine animals under suitable direction and solvice. Those students are desired who have already made a beginning in the study of natural history.

About two years ago the British Government re-solved to require the selected candidates for the Indian civil service to reside at Oxford or Cambridge during the interval between their examina tion and their final departure for India. Oxford at once provided teachers in Indian law and in the principal Indian languages, and many candidates have availed themselves of these privileges. The University is now considering the question of so modifying its requirements that these comparatively transient students may take a degree.

It is estimated that the increase in the school popnlation of Texas is annually 10 to 15 per cent. One-fourth of the general revenue has been appropriated against one-sixth last year for the public free schools, but the rate of taxation has been reduced, and the general revenue will probably be smaller.

The aggregate school fund from all sources in 1880 was only \$824,022. It is feared that the schools are to suffer from lack of money; but in spite of this the Legislature not only made no effort to improve matters, but arranged for additional appropriations out of the school fund for other purposes than the maintenance of the schools.

Professor Shipman, of Tufts College, says that no other part of the studies preparatory to entering college is so irregular as that of English. Professor C. Atkinson, in charge of the study of English and history at the Institute of Technology, says that many colleges are doing injury to the work of imparting a true knowledge of English by limiting their efforts true knowledge of English by limiting their chorts in this direction to mere selections from a few authors, read in a perfunctory manner. He strongly protests against allowing the study of Greek to retard that of English language and literature, and urges that its study should be made in certain cases optional, so as to give the preference to English and modern languages. English, he claims, is destined to be the basis of linguistic studies for this nation in the near future.

It is both pleasant and novel to read the com-ments upon the recent action of Cambridge admitting women to fuller privileges. It has already had a remarkable effect in liberalizing opinion. In the past ten years there has been a marvellous advance in the popular ideas concerning woman's edu-cation. Those who have long supported her claims to intellectual growth may well be permitted a little sarcasm over the blind prejudices of the past. We doubt," says Mr. George William Curtis, in the last "Easy Chair," if mothers will love their children less because of this opening of the university gates, and we do not fear that even in this spring the young man's fancy will refuse to turn to thoughts of love because Cunigunda may be more devoted to Newton than to Worth, or more observant of a star in Lyra than of the solitaire in her own ears."

Mr. Thurber, of the Girls' High School in Boston, read before the recent meeting of the Massachusetts classical and high school teachers a paper on the admission to college on the recommendation of the teacher. He considered this the best method. He touched on the evils which react on the school as well as the college in the admission of pupils improperly prepared, and said that the best favor the colleges could confer on the schools would be to send colleges could confer on the schools would be to send them back. Then, he claimed, the influence of the school and the authority of the teacher would be reinforced. The trepidation and the cramming incident to an examination were evils to be avoided. The teacher had the best possible opportunities of estimating the quality of pupils from long familiarity with their attainments; and the consciousness on the part of the pupil that his own conduct and proficiency as tested by his career in the school, and not by a brief examination, should govern his prospects, would have a good effect.

. A LIVE SCHOOL."

MINES AND MINING.

WEDNESDAY, April 13-P. M. The mining stock markets to-day continued active and prices generally were higher. Bull Domingo was conspicuous by its advance from 2.75 to 3.40@3.35. Silver Cliff also was active and higher, advancing from 614 to 658, but closing only 18 higher at 638. Mariposa was less active but the common rose from 538 to 6, and preferred to 8. Navajo closed 5 cents lower at 115, after selling at 1.25. Moose was firm at 1.70. Hibernia

was very active between 1.30 and 1.35, closing strong and 10 cents higher at the latter price. Lead-ville Consolidated failed to maintain yesterday's advance, and closed 5 cents lower at 1.70. Consoliadvance, and closed 5 cents lower at 1.70. Consolidated Virginia also was 5 cents lower at 2.10, with sales at 2.20, but California advanced 5 cents to 1.30. Hortense declined from 57 to 54@55 cents. Stormont was moderately active, and rose from 3.25 to 3.55. Hukili was neglected. Amic was 2 cents higher at 49 cents and Alta Montana was steady at 24. Big Pittsburg was firm at yesterday's advance to 3.75. Green Mountain was quiet at 65@642. Little Chief was 10 cents higher at 1.40 and Chrysolite quiet and steady at 64. Cherokee was dull at 1.95. Mineral Creek was slightly higher at 1; Oriental Miller declined to 2.50 and Silver Nugget, new, was firm at 55 cents. The business in Sutro Tunnel was heavy between 23g and 24g, but it closed unchanged at 24.

AASSAS MARKET CONTRACTOR OF THE PARTY OF THE	0.00		

[BY TELEGRAPH TO THE TRIBUNE.]

[BY TELEGRAPH TO THE TRIBENE.]

SAN FRANCISCO, April 13.—The agent of the Oriental mines, Gold Mountain, now here, is receiving bids for building a 40-stamp mill.

Very favorable reports have been received from Noonday.

The market has turned and stocks are up again, with prospects of going higher. Sierra Novada brought \$16 after the session.

Bullion receipts for the past week: Contention, \$38,300; Northern Belle, \$20,200; Bodie, \$6,170; Eurela Consolidated, \$35,000; Christy, \$4,000; Navajo, \$4,500; Star, \$3,100; Syndicate, \$6,000; Silver King, \$20,000; Standard Consolidated, \$44,932.

silver King, \$20,000; Standard Consolidated, \$44,332.

Leadville, Cel., April 13.—A personal examination of Rig Pittsburg shows that a level has been opened from the shaft at a depth of 128 feet north forty feet and east twenty feet to the Hibernia line. An upraise from this level, raised thirty-five feet, cut ten feet of very rich ore. A drift on the Hibernia line twenty-five feet in length shows a body ten feet thick of ore averaging 800 ounces of silver to the ton. A crosscut running west of the junction with the Matchless exposes the same ore body. This single drift, for a distance of thirty feet, produced over \$50,000. The showing in the mine is great. A chloride streak in both Big Pittsburg and Hibernia eight inches thick returns \$10,000 to the ton. The value of Big Pittsburg depends on future developments to the west.

Bodie, Cal., April 13.—During the past week Standard Consolidated shipped to the mill 1,223 tons of ore; average pulp assay, \$27.70. Crude bullion received, 3,805 ounces. Shipped to the company, \$14,932.

The Concordia stopes are in extremely high grade ore.

The concentration of the Silver Cliff Company telegraphed yesterday; "Have shipped to-day two bars, 193 pounds, bullion, Am saving 87 per cent in mill. Pulp assays to-day, 49 onnees."

The Continental Mining Company, owning the Modoe claim, lying east of and adjoining the Grand Central and Contention mines, Tombstone, Arizona, has been incorporated under the laws of Indiana, with a capital of \$2,000,000 on 200,000 shares. The incorporators are: Samuel B. Huey, B. K. Jamison, Henry C. Townsend, J. E. Soule and James S. McCoy, Work is now in progress at the mine.

It is reported that a rich strike has been made in the Heck lode, California District, La Plata County, Colorado. A cut and tunnel has been run 25 feet, disclosing a well-defined true fisaure vein of telluzium ore 4½ feet in width. Mill runs yielded \$558 50 per ton.

The Huachuca Water Company has been incorporated under the laws of Indiana with a capital of \$2,000,000 in 200,000 shares. Directors: George Burnham, Charles T. Parry, Samuel C. Huey, B. K. Jamison, Samuel B. Huey, James S. McCoy and Richard Gird. This company proposes to bring water in large quantities from the Huachuca Monntains to supply the mines, mills, hoisting-works and inhabitants of the Tombstone District, Arizona.

The Georgetown (Col.) Courier of April 7, has

The Georgetown (Col.) Courier of April 7, has the following: "The character of the ore in the second Lucerne lode, one of the mines of the Lucerne Mining Company, in Idaho District, is steadily improving. The company now owns 4,200 feet in three adjoining veins, and we are informed that negotiations are pending for the purchase of the Hartman mine, which, if carried out, will give the company a very strong consolidation. The ore is

similar to that of the Stevens mine, and the entire outfit is contracted for by the Moore smelter, at Goldon."

Mining.

CLOSING PRICES OF PHILADELPHIA STOCKS.

| Reported by John H, Davis & Co., No. 17 Wall.st. | Rid. Asked | Rid.

WEDNESDAY, April 13-P. M. The advance in stocks begun yesterday afternoon

had not sufficient vitality to live beyond the first hour to-day. The opening prices did not differ ma-terially from the closing figures last night, and in the early dealings stocks were strong at a fractional advance. The one exception to the rule was Central Pacific, which was weak throughout the day. Its lowest price was made at the very time when other stocks were near their best. It fell from 86 to 8312, and with a final rally to 84 recorded the largest loss among active stocks. The arrest of the advance in the general market and the subsequent decline were caused by rumors of serious disturbances in the east-bound freight pool. It was reported that a further cut in rates had been made by one of the trunk lines, and that the quarrel over rates had become so bitter that Commissioner Fink !

had informed the companies that they must settle the dispute themselves. The Commissioner denies any official knowledge that the rates established Monday have not been observed. He admits that rumors of cut rates from St. Louis have reached him but he professes to discredit them. All persons well informed in railroad affairs have known that for styeral months schedule rates have not been maintained by the trunk lines. The growing export business by way of St. Louis and New-Orleans may be one of the causes of this lack of harmony, About 4,000,000 bushels of grain have been shipped from these points this year against about 3,250,000 bushels last year, and this increase has been made in spite of the fact and this increase has been made in spite of the fact that the river was not open until nearly five weeks later than last year. It is said that the saving in freight by way of New-Orleans is about 10 cents a hundred pounds over the rall and occur rates by the Atlantic scaports. But whatever truth there may be in the rumors of cut rates, or whatever the cause may be, it is undeniable that the reports circulated to-day led to a considerable shrinkage in stock values. Lake Shore was active, falling from 1294s to 1264; 26166; Erie declined from 474 to 46:2464; Central and Hudson from 1448 to 1424, recovering to 1431s; Michigan Central from 1102 to recovering to 14318; Michigan Central from 1102 to 108@10812; and Canada Southern from 7928 to 772 278. The elevated railroad stocks were weak throughout, declining from 13 to 13 from yesterday's last prices. The opinion is held by some that the resignations of the Garrisons indicate that they have abandoned the Manhattan Company. Exceptions to the general decline were Marietta and Cin-cinnati first preferred, which was unusually active and closed 1 s per cent higher at 15 s, and Reading. which closed at 62 against 6012 last night. The market closed unsettled at a slight recovery from

the lowest prices for the day.

An unusually large business was done in Govern ment bonds, sales at the Boards amounting to \$470,000. Prices were strong, except for 5s, which in the final bids were 1s lower. For the other issues the closing bids showed advances of 1s for 6s and 1 each for 412s and 4s. Annexed are the closing que-

Hations:

U.S. 6a, 1907, reg. 113's, 114
U.S. cur. 6a, 1886, 130
U.S. 6a, 1886, 130 State bonds were quiet but steady. Of the Ten-

nessee issues, new series were higher at 75, but old and new were lower at 73 and 74. Virginia 6s, deferred, were strong but only 4 higher at 1912. Besides these, there were sales of South Carolina, nonfundable, and North Carolina 6s, special tax, at unchanged prices. Of city bank stocks, German-American sold (8) at 98, and Park (5) at 152. The dealings in railroad bonds were less interest-

distributed. Erie second consols were dull at 1023 @ 1024s, and new funded 5s at 98. Missouri, Kansac and Texas seconds opened higher at 85, but closed barely steady at 84%. Rome, Watertown and Ogdensburg firsts gained the fraction at 88%@8819. The movement in C., C. and I. C. issues was continued, firsts rising from 116 to 120, and firsts, assented, from 1112 to 115; both closed strong at the best prices for the day. New-Jersey Central consols were weak at 1164/201163s. Chesapeake and Ohio firsts, series B, were slightly higher at 844@844 and currency interests at 5534. Mobile and Ohio first debentures were dull but steady at 88%, while second debentures yielded from 59% to 58½. Iron Mountain first incomes were strong at 95½. A considerable business was done in New-York Elevated firsts, which were firm at 118. Metropolitan firsts were dull and lower at 10514, and seconds fell 1 percent to 96. Indiana, Bloomington and Western seconds advanced from 80 to 81, and incomes from 88 to 89. Denver and Rio Grands firsts were 1 per cent lower at 118, and consols !

insts were I per cent lower at 118, and consols be lower at 114. Texas Pacific incomes early advanced to 86, but closed at 85@85\s against 85\squares yeared day; firsts, Rio Grande Division, were dull but the fraction higher at 97\gamma\_97\squares.

The Sub-Treasury to-day lost on balances \$2.387.767, made up of a coin loss of \$2,460,626, less a currency gain of \$72.859. This makes the loss since Friday \$1.143,996. In the morning hours money loaned at 6 and 5 per cent, the bulk of the business being at the lower rate. In the closing hour large loans were made at 4 per cent. The steamship Labrader brought \$812,530 in gold coin. The domestic exchanges on New-York at the placer mamed are quoted as follows: Savannah, \sa\square\squ
